# SECRET HOTEL

## SECRET HOTEL

Secret Hotel is a spacious guest house with multiple rooms.

Every room hosts a unique experience, be it a dance performance, a performance lecture or a walk in the countryside.

Our interest is creating new encounters and live interaction between places and people, adult or children. Central to the creation of our rooms is the idea – inspired by the philosophy of deep ecology and by travels to Tuva in Siberia – that humans are connected to one another and the world around us.

Sometimes our guests are participants, sometimes they walk with us, sometimes they simply watch – and we aim at always welcoming and involving them as true guests.

Secret Hotel has hosted projects and events since 1999, and toured since 2008 (Europe, Russia, USA and Canada). We are based in Aarhus, and have our own research space in the countryside where residencies are arranged.
